

WOVEN FABRICS

Simply Stunning Woven Quilts.....Anna Faustino..C & T Publishing

MATERIALS

2 different fabric squares....6 to 12 inches.

Paperback fusible web....2 pieces cut the same size of the fabric Squares.

Masking tape Marking pencil

Rotary cutter

Ruler

Iron the fusible web to the back of the fabric squares.

Draw vertical & horizontal center lines on the paperbacking of Both fabric squares. We are making a small project so I would Space the next lines on each side of the center line about $\frac{3}{4}$ " apart. Place a piece of masking tape $\frac{1}{2}$ " across the top of one of the Fabric squares.

With a rotary cutter, cut a wavy cut across the straight pencil lines. Do not cut through the masking tape.

When cutting the second square you will number the strips so that You will be weaving them as one follows the other.

Put a piece of parchment paper under the sticky side After ironing The pieces together & it has cooled the parchment will peel off.

Pin the top & the edges as you go.
